

## Trade-in Program

### Overview

Earn a discount on your new NETZSCH pump by replacing a competitor's pump! This will include the pump and the relevant new spare parts that are on the shelf. Valid for any competitor of Progressing Cavity, Rotary Lobe, Multiple Screw or Hose Pumps. NETZSCH reserves the right to confirm the eligibility of the pump and parts to be traded in. Please consult NETZSCH before shipping the competitor's pump.

### Your Benefit

- Get an additional 20% off, on a new NETZSCH pump(s) and new spare parts - equal exchange in the customer's stock.
- Trade parts from a competitor's pump, like-for-like when you are trading a pump. Competitor parts need to be new.
- Receive online training from a Regional Manager in the operation and maintenance of your new NETZSCH pump. A one-hour training will be scheduled on an agreed upon date.
- NETZSCH pays the freight of the new pump/parts to end user destination.

### Rules

Send us your competitor's Progressing Cavity Pumps, Rotary Lobe Pumps, Multiple Screw Pumps or Hose Pumps. The pump(s) needs to be clean before shipping to us.

Send the parts on customer shelf for those pumps. Parts need to be new. Only valid if customer is trading a pump, if they are in the customer/distributor stock, and exchange is part for part.

Customer/distributor pays the freight to ship the pump/parts to the nearest NETZSCH (Houston or Exton) location.

NETZSCH will accept a trade in of one technology to receive a different technology. For example: You can exchange a competitor's progressing cavity pump to receive a TORNADO® Rotary Lobe Pump.

NETZSCH reserves the right to inspect the pump first to confirm the trade in program is valid.

Geared motor and baseplate will be considered and valid for the trade in.

NETZSCH reserve the right to confirm the validity of the program. Please consult before shipping your pump. This program is valid in US. Excluded States: Alaska and Hawaii.
