Environment | Policies

Impact on score ●●●●

→ 75 /100

A policy is a set of objectives that addresses specific sustainability issues. It shows a company's intention to reduce impact, mitigate risk or improve performance.

Strengths

|                                                            |
|------------------------------------------------------------|
| Formal mechanisms to review and amend environmental policy |
| Environmental policy scope of application specified        |
| Environmental policy on energy consumption and GHGs        |
| Environmental policy on product use                        |
| Quantitative targets set on energy consumption and GHGs    |
| Comprehensive policy on a majority of environmental issues |
| Environmental policy on water                              |
| Environmental policy on product end-of-life                |
| Environmental policy on materials, chemicals, and waste    |

Improvement areas

|              |                                                                                      |
|--------------|--------------------------------------------------------------------------------------|
| Low priority | No supporting evidence of dedicated responsibility for environmental policy          |
| Low priority | No supporting evidence of quantitative target set on water                           |
| Low priority | No supporting evidence of quantitative target set on materials, chemicals, and waste |

Environment | Endorsements

Impact on score ●○○○

● ↗ 75/100

Endorsements are your company’s public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Strengths

Endorsement of the United Nations Global Compact (UNGC)

Improvement areas

Low priority

The company has yet to commit to top-tier environmental initiatives that integrate sector-specific issues with rigorous, science-based, or third-party verified constraints

Environment | Measures

Impact on score ●●●●

● → 100/100

Measures are your company’s actions to support your sustainability policies and commitments.

Strengths

|                                                                                                                         |
|-------------------------------------------------------------------------------------------------------------------------|
| Design features or machinery modification incorporated to reduce friction and heat loss during operation                |
| Integration of adaptive practices into operational processes to withstand environmental disruptions                     |
| Physical climate risk assessment in place for the company's operations                                                  |
| Establishment of emergency reserves or safety nets for environmental disruptions                                        |
| Use of eco-friendly or bio-based process materials                                                                      |
| Implementation of a rainwater harvesting system                                                                         |
| Collaboration with external stakeholders for product end-of-life management                                             |
| Take-back or buy-back program to collect product for remanufacture, recycling, or safe disposal                         |
| Provision of information on proper disposal of product to promote circular material flow                                |
| Provision of information on efficient use, storage, and maintenance to extend product life                              |
| Provision of service parts, diagnostic tools, or maintenance programs to support product repair                         |
| Design features or machinery modification incorporated to prevent or reduce leakages of input material during operation |
| Recovery and reuse of materials from company operations                                                                 |
| Specialized treatment and safe disposal of hazardous substances or waste                                                |
| Wastewater quality assessment                                                                                           |
| Technologies or practices to recycle or reuse water                                                                     |
| Elimination or reduction of substances of concern in electrical and electronic products                                 |
| Programs to label, sort, and recover electrical and electronic components of products                                   |
| Design features for easy disassembling, remanufacturing, or recycling of products                                       |
| Studies on product environmental impact                                                                                 |
| Design aimed at reducing resource input required for product use                                                        |
| Adoption of cooling systems with reduced or recycled water consumption                                                  |
| Use of waste heat recovery system(s) or combined heat and power unit(s)                                                 |
| Reduction of internal wastes through material reuse, recovery or repurpose                                              |
| Internal sorting & disposal of waste according to waste streams                                                         |
| Mapping of waste streams                                                                                                |
| Training of employees on energy conservation/climate actions                                                            |
| Improvement of energy efficiency through technology or equipment upgrades                                               |
| Actions for labeling, storing, handling and transporting hazardous substances                                           |
| Training employees to safely handle and manage hazardous substances                                                     |
| Environmental emergency measures in place                                                                               |
| Purchase and/or generation of renewable energy                                                                          |
| Reduction of material consumption through process optimization                                                          |
| Training of employees on waste reduction and sorting                                                                    |

Energy and/or carbon audit

Improvement areas

- Low priority

No supporting evidence of the execution of a water basin risk assessment for the company's operations
- Low priority

No supporting evidence of the implementation of resilient facility infrastructure to withstand environmental hazards
- Low priority

No supporting evidence of a water audit
- Low priority

No supporting evidence of the allocation of dedicated budgets or capital investments for environmental resilience

Environment | Certifications

Impact on score ●●●○

● → 100/100

Certifications confirm your compliance with international standards (for example, ISO 14001, ISO 45001, ISO 37001, SA8000 or FSC Chain of Custody). They must be issued by an external certification body.

Strengths

- Environmental management system certification covers more than 75% of the assessed scope
- ISO 50001 certified
- ISO 14001 certified

Environment | Coverage

Multiplying factor

● 100/100

Coverage means the level of deployment of measures and certifications throughout your company. It's a multiplying factor. The higher it is, the higher score will be given to the Measures and Certifications indicators.

Strengths

- Supporting documents show an exceptional level of coverage of environmental actions or certification throughout company operations

Environment | Reporting

Impact on score ●●●○

● → 75/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

|                                                                                                      |
|------------------------------------------------------------------------------------------------------|
| Reporting in accordance with ESRS Set 1                                                              |
| Reporting on total gross market-based Scope 2 GHG emissions                                          |
| Company communicates progress towards the Sustainable Development Goals (SDGs)                       |
| Reporting on total gross location-based Scope 2 GHG emissions                                        |
| Comprehensive reporting on environmental issues                                                      |
| External assurance or verification of sustainability reporting                                       |
| Reporting on total gross Scope 3 GHG emissions                                                       |
| Total gross Scope 3 GHG emissions reporting value confirmed in supporting documentation              |
| Reporting on total gross Scope 1 GHG emissions                                                       |
| Reporting on total amount of water recycled and reused                                               |
| Reporting on total energy consumption                                                                |
| Reporting on total weight of hazardous waste                                                         |
| Reporting on total amount of renewable energy consumed                                               |
| Reporting on total weight of waste recovered                                                         |
| Reporting on total gross Scope 3 downstream GHG emissions                                            |
| Total gross Scope 3 downstream GHG emissions reporting value confirmed in supporting documentation   |
| Total gross Scope 1 GHG emissions reporting value confirmed in supporting documentation              |
| Reporting on total water consumption                                                                 |
| Reporting on total weight of non-hazardous waste                                                     |
| Materiality analysis in sustainability reporting                                                     |
| Declares none of the sites/operations located in or near biodiversity-sensitive areas (not verified) |

Improvement areas

|              |                                                                                                                   |
|--------------|-------------------------------------------------------------------------------------------------------------------|
| Low priority | Total gross location-based Scope 2 GHG emissions value not confirmed in supporting documentation                  |
| Low priority | Total gross market-based Scope 2 GHG emissions value not confirmed in supporting documentation                    |
| Low priority | No supporting evidence of reporting on the percentage of WEEE collected out of the total EEE placed on the market |

Netzsch Pumpen & Systeme GmbH's Carbon Performance and Industry Benchmarking

ditchcarbon.com | 06 Sep 2025

Netzsch Pumpen & Systeme GmbH operates within the industrial equipment sector, navigating its ongoing sustainability journey. The company holds a DitchCarbon score of 9, which is lower than 3% of its industry peers, indicating that there is substantial opportunity for improvement, target adoption, and enhanced carbon management relative to the rest of the market. Proactive data disclosure and structured reduction frameworks will be crucial for improving its long-term environmental positioning.

Measures are your company’s actions to support your sustainability policies and commitments.

Strengths

|                                                                                                                                                                      |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Actions to ensure equal pay for equal work                                                                                                                           |
| Actions to ensure adequate wages                                                                                                                                     |
| Actions to protect the physical and mental wellbeing of young workers                                                                                                |
| Third-party worker voice survey                                                                                                                                      |
| Actions to prevent discrimination in professional development and promotion processes                                                                                |
| Communication to all employees of remuneration process (e.g. salary grid, procedure for salary advancement)                                                          |
| Employee satisfaction survey                                                                                                                                         |
| Health care coverage of employees in place                                                                                                                           |
| Compensation for extra or atypical working hours                                                                                                                     |
| Collective bargaining agreement on working hours, overtime, or leaves                                                                                                |
| Actions to promote the inclusion of employees with disabilities                                                                                                      |
| Grievance mechanism on discrimination and/or harassment issues                                                                                                       |
| Employee resource or support groups open to all                                                                                                                      |
| Collective bargaining agreement on career management & training                                                                                                      |
| Actions to prevent discrimination during recruitment phase                                                                                                           |
| Employee representatives or employee representative body (e.g. works council)                                                                                        |
| Family Friendly programs (FFPs) implemented (e.g. parental or care leaves, childcare services or allowances)                                                         |
| Other actions to promote structured social dialogue                                                                                                                  |
| Awareness training on discrimination and harassment                                                                                                                  |
| Actions to prevent workplace harassment                                                                                                                              |
| Flexible organization of work (eg. remote work, flexi-time)                                                                                                          |
| Grievance mechanism on working conditions                                                                                                                            |
| Collectively bargained wages                                                                                                                                         |
| Actions to manage working hours and overtime                                                                                                                         |
| Actions to promote equal opportunities for all in the workplace                                                                                                      |
| Skills development program tailored to employee needs                                                                                                                |
| Age verification of candidates before hiring                                                                                                                         |
| Grievance mechanism on child labor, forced labor and/or human trafficking issues                                                                                     |
| Actions to control hazardous substance exposure                                                                                                                      |
| Regular assessment of individual performance                                                                                                                         |
| Individual development and career plan for all employees                                                                                                             |
| Actions to promote internal mobility                                                                                                                                 |
| The company declares its main operation(s) is located in a region where the right to freedom of association is not restricted by local law/regulation (not verified) |
| Actions in place to ensure health and safety of non-employee workers and other contracted workers on premises                                                        |

|                                                                                                |
|------------------------------------------------------------------------------------------------|
| Employee health and safety emergency action plan                                               |
| Actions to address stress and psychological wellbeing in the workplace                         |
| Actions to prevent noise exposure                                                              |
| Equipment safety inspections or audits                                                         |
| Employee health & safety risk assessment                                                       |
| Training of employees on health and safety risks and best working practices                    |
| Regular employee health check-up                                                               |
| Complaints procedure in place for employees to report on occupational health and safety issues |
| Preventive actions for repetitive strain injury (RSI)                                          |

Improvement areas

Low priority

No supporting evidence of training of employees on child labor, forced labor, and human trafficking

Labor & Human Rights | Certifications

Impact on score ●●●○

● → 50/100

Certifications confirm your compliance with international standards (for example, ISO 14001, ISO 45001, ISO 37001, SA8000 or FSC Chain of Custody). They must be issued by an external certification body.

Strengths

|                                                                                                         |
|---------------------------------------------------------------------------------------------------------|
| Labor and human rights management system certification covers between 51% and 75% of the assessed scope |
| ISO 45001 certified                                                                                     |

Improvement areas

Low priority

Current labor and human rights certification(s) are insufficiently stringent in their requirements. The existing frameworks lack the necessary depth and comprehensive scope to effectively address all material issues within the theme

Labor & Human Rights | Coverage

Multiplying factor

● 100/100

Coverage means the level of deployment of measures and certifications throughout your company. It’s a multiplying factor. The higher it is, the higher score will be given to the Measures and Certifications indicators.

Strengths

|                                                                                                                                             |
|---------------------------------------------------------------------------------------------------------------------------------------------|
| Supporting documents show an exceptional level of coverage of labor and human rights actions or certification throughout company operations |
|---------------------------------------------------------------------------------------------------------------------------------------------|

Labor & Human Rights | Reporting

Impact on score ●●●○

● ↗ 100/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

|                                                                                                           |
|-----------------------------------------------------------------------------------------------------------|
| Exceptional reporting on labor and human rights issues                                                    |
| Reporting in accordance with ESRS Set 1                                                                   |
| Company communicates progress towards the Sustainable Development Goals (SDGs)                            |
| Reporting on the percentage of women employed in relation to the whole organization                       |
| External assurance or verification of sustainability reporting                                            |
| Reporting on percentage of employees from minority and/or vulnerable groups at top management level       |
| Report on average unadjusted gender pay gap                                                               |
| Reporting on the percentage of employees from minority and/or vulnerable groups in the whole organization |
| Report on percentage of women within the organization's board                                             |
| Reporting on the number of identified discrimination or harassment incidents or corrective actions        |
| Reporting on number of average training hours per employee                                                |
| Materiality analysis in sustainability reporting                                                          |
| Reporting on number of days lost to work-related injuries, fatalities and ill health                      |
| Reporting on number of recordable work-related accidents                                                  |

Improvement areas

Low priority

No supporting evidence of reporting on the ratio of the annual total compensation of the highest-paid individual to the median annual total compensation for all employees

Labor & Human Rights | 360° Watch

Impact on score ●●●●

● → 75/100

The 360° Watch Findings indicator is scored based on the data we gather by scanning thousands of sources in the public domain. This allows us to get a broader overview of your company's sustainability management.

Netzsch company: Fire broke out in the laboratory area [DE]

www.oberpfalzecho.de | 11 Mar 2022

No injuries, but high property damage: This is the result of a fire that broke out on Thursday in the Netzsch Feinmahltechnik laboratory in Selb for reasons that are still unclear. After more than three hours, several hundred emergency services were able to extinguish the fire. The cause of the fire is still unclear at this point in time.

Ethics Impact on score ●●○○

● ↗ 80/100

Ethics | Policies Impact on score ●●●●

● → 75/100

A policy is a set of objectives that addresses specific sustainability issues. It shows a company’s intention to reduce impact, mitigate risk or improve performance.

Strengths

|                                                       |
|-------------------------------------------------------|
| Formal mechanisms to review and amend ethics policy   |
| Ethics policy scope of application specified          |
| Detailed examples available regarding ethics issues   |
| Comprehensive policies on ethics issues               |
| Policies on corruption                                |
| Policy on fraud                                       |
| Disciplinary sanctions to deal with policy violations |
| Policy on information security                        |
| Policy on money laundering                            |
| Policy on conflict of interest                        |
| Dedicated responsibility for ethics issues            |

Improvement areas

|              |                                                                               |
|--------------|-------------------------------------------------------------------------------|
| Low priority | No supporting evidence of employee signature acknowledgement of ethics policy |
| Low priority | No supporting evidence of quantitative target set on ethics                   |

Ethics | Endorsements

Impact on score ●○○○

● ↗ 50/100

Endorsements are your company’s public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Strengths

|                                                         |
|---------------------------------------------------------|
| Endorsement of the United Nations Global Compact (UNGC) |
|---------------------------------------------------------|

Improvement areas

|              |                                                                                                                                                                                               |
|--------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Low priority | Current ethics endorsement(s) are too general. There is a lack of participation in high-impact, sector-specific initiatives that address the unique material issues of the company's industry |
|--------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

Ethics | Measures

Impact on score ●●●●

● → 100/100

Measures are your company’s actions to support your sustainability policies and commitments.

Strengths

|                                                                                                                      |
|----------------------------------------------------------------------------------------------------------------------|
| Audits of control procedures to prevent corruption                                                                   |
| Training of employees on corruption and bribery prevention                                                           |
| Corruption risk assessments performed                                                                                |
| Information security risk assessments performed                                                                      |
| Information security due diligence program on third parties in place                                                 |
| Incident response procedure (IRP) to manage breaches of confidential information                                     |
| Specific approval procedure for sensitive transactions (e.g. gifts, travel)                                          |
| Anti-corruption due diligence program on third parties in place                                                      |
| Implementation of a records retention schedule                                                                       |
| Whistleblower procedure for stakeholders to report information security concerns                                     |
| Awareness training to prevent information security breaches                                                          |
| Whistleblower procedure for stakeholders to report corruption and bribery                                            |
| Measures for gaining stakeholder consent regarding the processing, sharing and retention of confidential information |
| Audits of control procedures to prevent information security breaches                                                |
| Measures to protect third party data from unauthorized access or disclosure                                          |

Ethics | Certifications

Impact on score ●●●○

● → 75<sub>/100</sub>

Certifications confirm your compliance with international standards (for example, ISO 14001, ISO 45001, ISO 37001, SA8000 or FSC Chain of Custody). They must be issued by an external certification body.

Strengths

|                                                                               |

Ethics | Coverage

Multiplying factor

● 100<sub>/100</sub>

Coverage means the level of deployment of measures and certifications throughout your company. It’s a multiplying factor. The higher it is, the higher score will be given to the Measures and Certifications indicators.

Strengths

|                                                                                                                             |
|-----------------------------------------------------------------------------------------------------------------------------|
| Supporting documents show an exceptional level of coverage of ethics actions or certification throughout company operations |
|-----------------------------------------------------------------------------------------------------------------------------|

Ethics | Reporting

Impact on score ●●●○

● ↗ 100<sub>/100</sub>

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

|                                                                                |
|--------------------------------------------------------------------------------|
| Exceptional reporting on ethics issues                                         |
| Reporting in accordance with ESRS Set 1                                        |
| Company communicates progress towards the Sustainable Development Goals (SDGs) |
| External assurance or verification of sustainability reporting                 |
| Materiality analysis in sustainability reporting                               |

Ethics | 360° Watch

Impact on score ●●●●

● → 50/100

The 360° Watch Findings indicator is scored based on the data we gather by scanning thousands of sources in the public domain. This allows us to get a broader overview of your company’s sustainability management.

Improvement areas

Medium priority

The 360° Watch has identified at least one significant controversy, fine or penalty regarding ethics issues in the last ten years (see news with red downward arrow in the 360° Watch section).

Sustainable Procurement

Impact on score ●●○○

● ↗ 78/100

Sustainable Procurement | Policies

Impact on score ●●●●

● ↗ 75/100

A policy is a set of objectives that addresses specific sustainability issues. It shows a company’s intention to reduce impact, mitigate risk or improve performance.

Strengths

|                                                                                         |
|-----------------------------------------------------------------------------------------|
| Quantitative targets set on sustainable procurement                                     |
| Formal mechanisms to review and amend sustainable procurement policy                    |
| Comprehensive sustainable procurement policies on both social and environmental factors |

Improvement areas

|              |                                                                                       |
|--------------|---------------------------------------------------------------------------------------|
| Low priority | No supporting evidence of dedicated responsibility for sustainable procurement policy |
| Low priority | No supporting evidence of a scope of application for sustainable procurement policy   |

Sustainable Procurement | Endorsements

Impact on score ●○○○

● ↗ 50/100

Endorsements are your company’s public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Strengths

|                                                         |
|---------------------------------------------------------|
| Endorsement of the United Nations Global Compact (UNGC) |
|---------------------------------------------------------|

Improvement areas

|              |                                                                                                                                                                                                                |
|--------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Low priority | Current sustainable procurement endorsement(s) are too general. There is a lack of participation in high-impact, sector-specific initiatives that address the unique material issues of the company's industry |
|--------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

Sustainable Procurement | Measures

Impact on score ●●●●

● → 100/100

Measures are your company’s actions to support your sustainability policies and commitments.

Strengths

|                                                                               |
|-------------------------------------------------------------------------------|
| Worker voice surveys or grievance mechanisms for suppliers                    |
| Sustainable procurement objectives integrated into buyer performance reviews  |
| Integration of social and environmental clauses into supplier contracts       |
| Supplier assessment on environmental and social practices                     |
| Risk assessment of adverse sustainability impacts in the supply chain         |
| Training of buyers on social and environmental issues within the supply chain |
| On-site audits of suppliers on environmental and social issues                |
| Supplier sustainability code of conduct in place                              |
| Capacity building of suppliers on risks of sustainability adverse impacts     |
| Formal assessment of suppliers' progress with regards to REACH requirements   |

Sustainable Procurement | Certifications

Impact on score ●●●○

● ↘ 50/100

Certifications confirm your compliance with international standards (for example, ISO 14001, ISO 45001, ISO 37001, SA8000 or FSC Chain of Custody). They must be issued by an external certification body.

Improvement areas

Low priority

No supporting evidence of certification regarding the sustainable procurement theme

Sustainable Procurement | Coverage

Multiplying factor

● → 75/100

Coverage means the level of deployment of measures and certifications throughout your company. It's a multiplying factor. The higher it is, the higher score will be given to the Measures and Certifications indicators.

Strengths

Supporting documents show a high level of coverage of sustainable procurement actions throughout company operations or supplier base

Sustainable Procurement | Reporting

Impact on score ●●●○

● ↗ 100/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

|                                                                                                  |
|--------------------------------------------------------------------------------------------------|
| Reporting in accordance with ESRS Set 1                                                          |
| Company communicates progress towards the Sustainable Development Goals (SDGs)                   |
| Exceptional reporting on sustainable procurement issues                                          |
| Reporting on total gross Scope 3 upstream GHG emissions                                          |
| External assurance or verification of sustainability reporting                                   |
| Total gross Scope 3 upstream GHG emissions reporting value confirmed in supporting documentation |
| Materiality analysis in sustainability reporting                                                 |
| Declares using no tin, tantalum, tungsten, gold, and/or their derivatives (Not verified)         |

Sustainable Procurement | 360° Watch

Impact on score ●●●●

The below disclaimers apply to you if you have no contractual relationship with EcoVadis:

1. This Scorecard has a validity of twelve (12) months from the issue date. The rating and this Scorecard have been prepared based on information provided by the rated company and in accordance with best industry practices and EcoVadis methodology, which may differ from those used by other companies conducting similar assessments. EcoVadis disclaims any liability for any actions and/or decisions taken by a third party, including any investment decision, based on the ratings and/or this Scorecard.
2. This Scorecard is based on the disclosed information and news resources available to EcoVadis at the time of assessment. Should any information or circumstances change materially during the period of the Scorecard validity, EcoVadis reserves the right to place the Scorecard on hold and, if considered appropriate, to re-assess and possibly issue a revised Scorecard.
3. This Scorecard is the intellectual property of EcoVadis and must not be: (i) copied, modified, translated, published, reproduced and/or (ii) used as part of or in connection with any other CSR/ESG assessment, unless agreed otherwise in a written agreement signed with EcoVadis.
4. This Scorecard is the confidential information of EcoVadis. Unless agreed otherwise in a written agreement signed with EcoVadis, this Scorecard and the rating must not be used by a third party as part of or in connection with any activity related to revenue generation and shared any further; it may be used only for a third party's internal purposes.
5. Only a Scorecard of a rated company having a Select subscription can be used for the purpose of ESG – linked loans and similar products offered by any financial institution outside of the EcoVadis solution.
6. The rating and this Scorecard have been prepared based on information provided by the rated company and in accordance with best industry practices and EcoVadis methodology, which may differ from those used by other companies conducting similar assessments. EcoVadis disclaims any liability for any actions and/or decisions taken by a third party, including any investment decision, based on the ratings and/or this Scorecard.
